

# DEVOPS MSE-1

Name: Tanya Bhadana

Class : CS-5D

Roll no. : 2400290120260

## GitHub repository view showing the workflow files:

The screenshot displays the GitHub repository interface for a user named Tanya-kiet. The repository is titled "Add coverage workflow for PRs to main" and shows a commit hash of 378a69a from 20 minutes ago. The interface includes a sidebar with a file explorer showing the repository structure, including folders like .devcontainer, .github, images, steps, workflows, and data. The main content area shows a table of workflow files with columns for Name, Last commit message, and Last commit date.

| Name                        | Last commit message                             | Last commit date |
|-----------------------------|-------------------------------------------------|------------------|
| ..                          |                                                 |                  |
| 0-start-exercise.yml        | Initial commit                                  | 9 hours ago      |
| 1-step.yml                  | Initial commit                                  | 9 hours ago      |
| 2-step.yml                  | Initial commit                                  | 9 hours ago      |
| 3-step.yml                  | Initial commit                                  | 9 hours ago      |
| 4-step.yml                  | Initial commit                                  | 9 hours ago      |
| python-coverage.yml         | Add coverage workflow for PRs to main           | 20 minutes ago   |
| python-coverage.yml.example | Initial commit                                  | 9 hours ago      |
| python-package.yml.example  | Initial commit                                  | 9 hours ago      |
| python-tests.yml            | Add CI workflow and fix PYTHONPATH/test imports | 42 minutes ago   |
